Okay -- Jason Magalen is probably only available on Friday, if that will work.

Let me find out when John Connolly is available.

I'm checking our availability on Friday, or Monday or Tuesday of next week. Will any of these days work for you?

Stephanie:

Can we have the telephone discussion regarding Item 2 that we discussed this morning? The CPG would like to understand what data needs that EPA is attempting to answer by conducting this survey.

Thank you.

Hi Rob,

1. I'll be able to send you comments on the DO QAPP tomorrow. However, I think you can continue planning to conduct the work next week. We will be suggesting another 2 or 3 locations to include.
2. We want to move forward with conducting a multi-beam bathymetric survey, including single beam surveys in appropriate areas. Please let us know when the survey can be scheduled, and if you want to set up a call to discuss logistics.
3. I should be able to send you comments on the high-volume CWCM QAPP by Thursday, and then will shift my attention to the revised RARC, particularly Appendix B. My goal will be to get you comments on that by next Monday (realistically).

Please let me know if you have any questions.

Thanks,
Stephanie
